

GET YOUR POWERSPORT VEHICLE READY FOR ACTION

Make sure you're ready for action every time with the easy to use CT5 POWERSPORT battery charger. With dedicated programs for lead-acid and lithium* batteries, you can get the best performance out of your powersport vehicle batteries whether you're on land, water, snow or ice.

PEAK PERFORMANCE CHARGING

Your powersport vehicle always needs to be in top condition to give you the best performance possible. Powersport vehicles are sometimes stored for long periods so the CT5 POWERSPORT battery charger makes sure your batteries are charged to capacity and your vehicle is ready to go when you are. The CT5 POWERSPORT has been designed specifically to charge and maintain powersport batteries using advanced technology to give you three fully automatic charging and maintenance programs – Normal: for all lead-acid batteries, including AGM, Lithium*: for lithium* batteries and Recond. You can connect it directly to the battery indefinitely, if required, and it won't over or under charge. It's easy to use and works with all types of 12V powersport batteries.

- Suitable for all motorcycles, ATVs, Jet Skis and snowmobiles
- Normal mode, optimized for all lead-acid batteries, including AGM
- Lithium* mode, optimised for lithium* batteries
- Recond mode for reconditioning deeply discharged batteries
- Fully automatic charging including maintenance stage
- 5-year warranty

*) 12V lithium batteries (LiFePO₄, Li-Fe, Li-iron, LFP)

CT5 POWERSPORT

CHARGE MODES

NORMAL

Charge program for medium sized lead-acid batteries.

RECOND

Charge program for reconditioning of deeply discharged batteries.

LITHIUM

Charge program for lithium batteries (12V LiFePO₄).

CHARGE STEPS

CHECK

Tests battery condition and restores capacity by removing sulphates.

CHARGE

Safe, fast charging of battery to maximum capacity.

CARE

Patented maintenance for maximum battery performance and lifetime.

GUARANTEED QUALITY WITH CTEK

CTEK customer support is available to answer any questions related to charging and CTEK chargers. Safety, simplicity and flexibility characterizes all products and solutions developed and sold by CTEK.

CTEK supply chargers to more than 70 countries throughout the world. CTEK is also a reliable OEM supplier to many of the world's most prestigious car and motorcycle manufacturers.

TECHNICAL DATA

INPUT	220-240VAC, 50-60Hz, 0.3A max
OUTPUT	14.4/15.8/14.2V, 2.3A max
BACK CURRENT DRAIN*	Corresponding to less than 1.5Ah/month
AMBIENT TEMPERATURE	-20°C to +50°C
BATTERY TYPES	12V: WET, EFB, Ca/Ca, MF, AGM, GEL, LiFePO ₄
BATTERY CAPACITY	5-25Ah
INSULATION CLASS	IP65
WARRANTY	5 years

*) Back current drain is the current that drains the battery if the charger is not connected to the mains. CTEK chargers has a very low back current.
